

Importer Security Filing (ISF 10+2)

Flexible solutions keeping you in control – and in compliance

Your challenge

The Importer Security Filing (ISF) regulation requires submission of an electronic ISF to U.S. Customs (10 data elements by importers, plus 2 by carriers) 24 hours before shipment loading.

There will be stiff penalties for non-compliance (\$5,000 per incident, plus cargo delays) when enforcement begins January 26, 2010.

Our solution

We offer integrated ISF services to ensure you meet the new requirements and that your shipments arrive on time, without delay. With Kuehne + Nagel, you get:

Reliability

- Client-specific implementation checklist & ISF application set-up
- Kuehne + Nagel ISF portal electronically integrated with U.S. Customs for filing, confirmation, exception alerts & disposition codes
- Dedicated communications protocol captures (via “ticketing”) all inputs for visibility & accountability (as broker)

Visibility & Control via KN Login

- Integrated visibility to filing confirmation & document images
- Single end-to-end supply chain visibility when combined with transportation, consolidation &/or customs information
- Proactive filing confirmation
- Proactive exception monitoring (as NVOCC / Origin Consolidator)

Experience

- Dedicated ISF team, working 24/7/364, ensures timely filings
- Since initial implementation (1/09), Kuehne + Nagel has made 60,000+ ISF filings

Flexibility for customers, depending on Kuehne + Nagel’s role:

As NVOCC / forwarder transportation manager:

- **Control of upstream processes** (vendor booking, AMS filing, document collection) – Allows proactive management of process / vendor
- **Transport information integrated to ISF application** – Drives efficiencies

As broker manager:

- **Single provider for brokerage & ISF** – Reduces non-compliance risks
- **Entry data matched to ISF filing** – Single visibility to & control of regulatory processes
- **Ability to house HTS database** – Standardizes regulatory filings

As origin consolidator / PO & vendor manager:

- **Leverage electronic POs to automate ISF process** – Increases timeliness & accuracy

When it comes to ISF 10+2, count on Kuehne + Nagel to:

Save time.

You know Kuehne + Nagel; we know your business.

Stay compliant.

Built-in validations & Kuehne + Nagel customs experts help ensure you’re accurate & on time.

Limit risk.

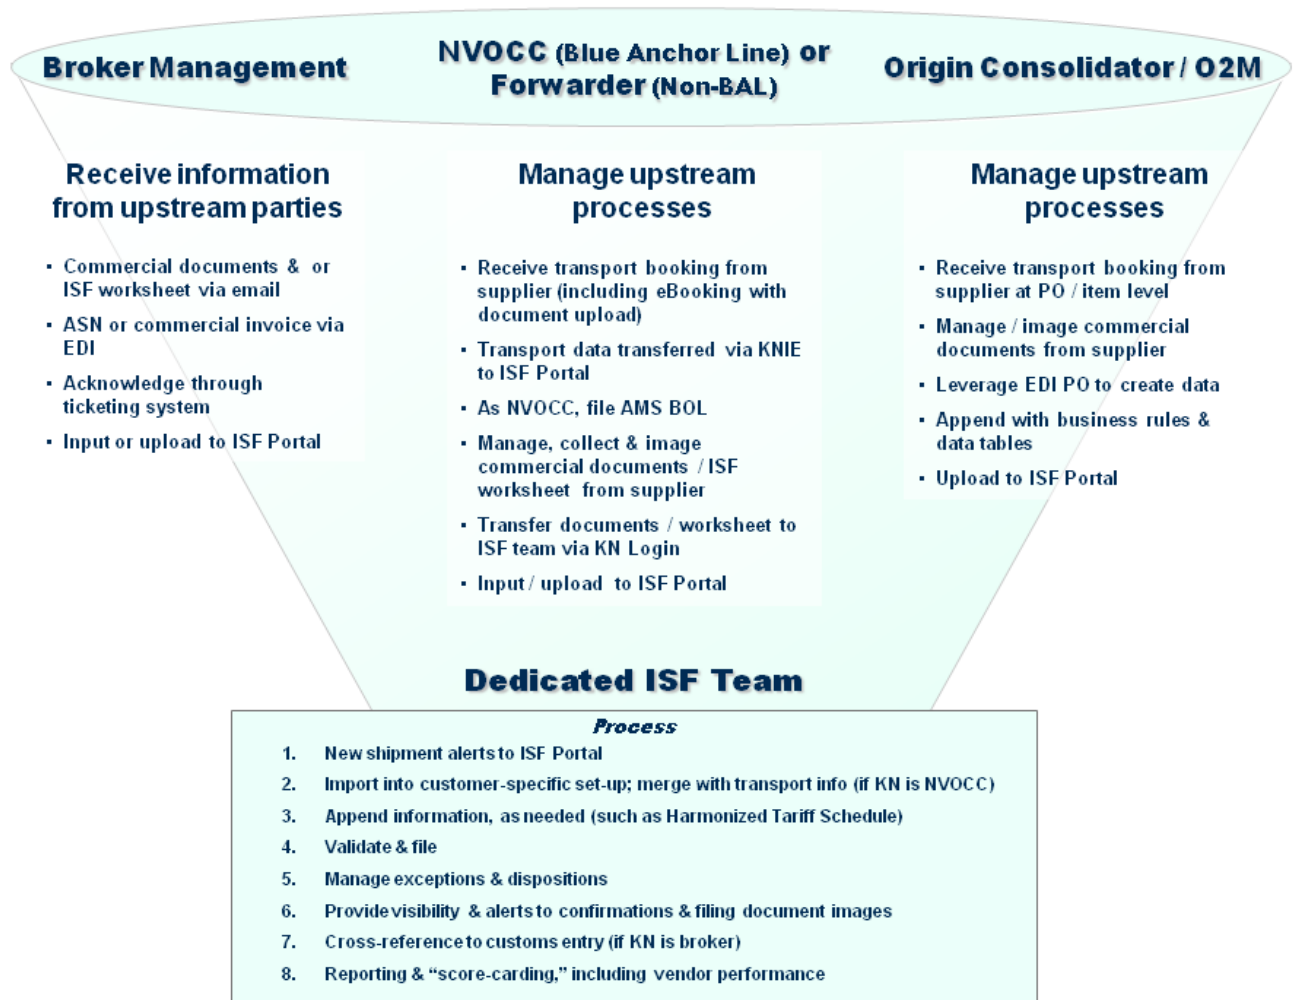

Our services reduce the chance of late-filing penalties and are accessible around-the-clock.
